

Established in 1981, J & S Mobile Home Service is the premier mobile home transport and relocation company in Central Florida.

Over the years, we have grown largely by word of mouth and have transported and relocated thousands of mobile homes statewide. On behalf of owners Sandy and James McLay, we would like to take a moment to thank the many park managers who continue to refer homeowners to us and the many homeowners who have let us assist them over the years. We also want to thank the surrounding Central Florida community for their continued support.

At J & S Mobile Home, we continue to provide the best quality transport service at an affordable price. We are dedicated to being the very best in the business and provide area homeowners with the kind of caring, experienced and professional service that folks appreciate. Our attention to detail and personalized service is why so many people use us. We can save you time, money and heartaches.

Don't hesitate to call us if you have a question or need. See why we are the area's #1 mobile

home transport movers. Thank you. We look forward to serving you.
